Current employment targets

Technical support, developer operations, QA, evaluation tooling, Python developer tools, public operations, grounds, parks, facilities, ports, utilities, fire-support, and field-safety roles.

Field routes are measured separately from the technical cohort.

Accepted external work

Free Law Project litigant-portal PR 820: runnable database-free fast-test documentation.

Hebbian Robotics hflow PR 157: reserved-column drift test coverage.

Voxwire PR 44: offline websocket recording and replay coverage.

DeepEval PR 2822: unhashable tool-output correctness fix.

TOMLKit PR 549: dotted-key sibling preservation fix.

Dataset PR 2815: wrong-arity composite-primary-key URL error handling.

Experience

Technical Networking Support, Xbox Division | Redmond, Washington | 2013 to 2014 | employer-of-record unknown.

Operations and Commercial Arboriculture Lead | Seattle-area family business | started 2015; current status unconfirmed.

Freelance Technical Writer, Documentation, and Product Operations | independent practice | started 2017; current status unconfirmed.

Independent Systems Engineer | independent practice | started 2023; current status unconfirmed.

Owned systems and public research

Flywheel is the primary public system. Related public work includes Terminal State Fixtures, BuildLang, Gather, Index, Crucible, Brender Archival, Engine Revival, retro-system pages, and public-safe security/evaluation documentation.

Research pages are public working records unless a page states otherwise. Research-status caveats are preserved; peer review is not implied.

Education

High School Diploma, Wilsonville High School, 2013.

Updated 2026-08-28. Public dates preserve unknown months. Phone and legal-name attestation are omitted.
